TESLEEM DANJUMAHA

SOFTWARE ENGINEER.

PROFILE

AS A FULL STACK DEVELOPER & SOFTWARE ENGINEER PASSIONATE ABOUT CREATING RESPONSIVE, HIGH-QUALITY WEB SOLUTIONS WITH CLEAN CODE AND MODERN DESIGN.

WORK EXPERIENCE

- Pocket Hizab Web App**
September 2025 - Present
 - Developed an innovative automatic calculator called Pocket Hizab, designed to uncover hidden aspects of human life through advanced hizab astrology calculations. Built with a focus on accuracy, accessibility, and ease of use for professional hizab astrologers..
- Learn Hizab Web App**
October 2025 - Present
 - Created an online learning platform called Learn Hizab to educate the next generation (Gen Z) about the principles and practice of Hizab. Designed structured, step-by-step classes with integrated video lessons and interactive web tools to make learning accessible, engaging, and practical.
- Alinn Farm Market**
October 2025 - Present
 - Built Alinn Farm, an online livestock marketplace that allows customers across Africa to buy and receive animals quickly and securely. The platform supports payments in Naira and cryptocurrency, ensuring convenience and accessibility. Designed to simplify livestock trading with fast delivery, trusted service, and modern e-commerce features.
